## Safety Data Sheet

Date of revision: 2021/02/26

1.Product and company identification

D-Leucine Product name

Name of manufacturer Yoneyama Yakuhin Kogyo Co.,Ltd.

2-3-11 Doshomachi, Chuo-ku, Osaka, 541-0045, Japan Address

Contact for Information Sales Division Telephone number 06-6231-3555 Fax number 06-6223-1093 SDS No. 29471

2.Hazards identification

GHSLabel Elements

GHS Classification Does not meet the classification criteria.

Symbol Signal ward

Hazard statement

3. Composition/information on ingredients

Substance/Mixture Substance Chemical name or commercial name D-Leucine

Synonyms

Chemical formula  $C_6H_{13}NO_2$ 

CAS RN:328-38-1 Numerical identifier

Ingredients and composition 100%

4.First and measures

INHALATION Move the exposed person to fresh air at once. Keep the affected person

warm and at rest.

Call a POISON CENTER/doctor if you feel unwell.

SKIN CONTACT Rinse immediately contaminated clothing and skin with plenty of water

before removing clothing.

If skin irritation occurs: Get medical advice/attention.

EYE CONTACT Remove contact lenses, if present and easy to do. Continue rinsing. INGESTION

Rinse mouth.

5. Fire fighting measures

Suitable extinguishing media spray water, alcohol-resistant foam, powder, carbon dioxide

Unsuitable extinguishing media No data Specific hazards arising from chemical No data Particular fire fighting No data

Special protective actions for fire-fighters Firefighting should be done upwind and avoid inhalation of toxic fumes.

Wear suitable protective equipment.

6.Accidental release measure

Personal precaution, protective equipment and Wear appropriate protective equipment and work from upwind to

emergency procedures

evacuate people downwind.

Wear protective clothing, respirator, chemical safety goggles, rubber boots and heavy rubber gloves.

Be careful not to discharge it into rivers, etc. and cause environmental Environmental precautions

impact.

Removal measure Store the vessels in a well-ventilated location. Entrust them to the

appropriate authorities for disposal.

No data

7.Handling and storage

Handling

Prevents leakage, overflow, and scattering, and does not generate dust

unnecessarily.

Do not handle the container by tumbling it, dropping it, giving it an

impact, or dragging it.

Provision of very good ventilation in the working area. Seal the container

after use

Rinse and then wash skin with water and soap.

Keep away from direct sunlight, high temperature and high humidity and

store tightly closed.

Technical measures

Precautions for safe handling

Incompatible materials

Hygiene measures

Storage

Conditions for safe storage

Washing facility at the workplace required.

polyethylene, polypropylene

Impervious protective gloves.

Protective clothing, protective boots.

Safety goggles.

Be careful of the storage environment as it is hygroscopic.

Air - supplied or self - contained NIOSH approved breathing apparatus.

Packaging compatibilities

8.Exposure controls/personal protection

Exposure limits

Equipment measures Provision of very good ventilation in the working area.

Protective equipment

Respiratory protection Hand protection

Eye protection Skin protection

9.Physical and chemical properties

Physical state crystal powder
Color white
Odor No data

Melting point/Freezing point 337°C (decomposition)

Boiling point No data
Upper/lower explosive limits No data
Flash point No data
Auto-ignition temperature No data
Decomposition temperature 337°C
pH No data

pH No data
Viscosity No data

Solubility 2.27g/100g (0°C, water), 2.43g/100g (25°C, water), 2.89g/100g (50°C,

water),  $3.82g/100g (100^{\circ}C, water)$ 

Partition coefficient: n-octanol/water log P = -1.52 Vapor pressure No data Specific gravity No data Vapor density No data Relative evaporation rate No data Combustible No data

10.Stability and reactively

Reactivity No data

Chemical stability Stable under normal handling.

Possibility of hazardous reaction No data

Condition to avoid sunlight, high temperature, high humidity

Incompatible materials strong oxidizing substances
Hazardous decomposition products nitrogen oxides, carbon monoxide

11.Toxicological information

Acute toxicity LD50 (rat, intraperitoneal) = 6,429mg/kg

Skin corrosion/irritation

No data
Eye damage/irritation

Respiratory sensitization and Skin sensitization

No data
Germ cell mutagenicity

No data

Carcinogenicity Not listed (NTP, IARC, OSHA) (Classification not possible)

Reproductive toxicity

No data
Specific target organ toxicity (single exposure)

No data
Specific target organ toxicity(repeated exposure)

No data
Aspiration hazard

No data

12.Ecological information

Hazardous to the aquatic environment

Persistence and degradability

No data
Bioaccumulative potential

Mobility in soil

No data

Hazardous to the ozone layer Not enumerated in Montreal Protocol on Substances that Deplete the

Ozone Layer.

13.Disposal considerations

Residual disposal If there is no way of recycling it must be disposed of in compliance with

the respective national and local regulation.

It consigns it to the industrial waste disposal trader who has permission.

14. Transport information **UN Number** UN proper shipping name Transport hazard class Packing group Additional identification Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers ensure that they are firmly secured. Ensure that the container valve is closed and not leaking. Prevent the product containers from falling over or falling. 15.Regulatory information Please apply to the regulatory control in each country. 16.Other information References Global Harmonized System of Classification and Labelling of Chemicals(GHS) Sixth revised edition National Institute of Technology and Evaluation(NITE) Hazardous Substances Data Bank(HSDS)

Attention

The Safety Data Sheet (SDS) is prepared based on JIS Z7253. All information contained herein is given in good faith and no warranty expressed or implied is made to its accuracy.

The recommended industrial hygiene and safe handling procedures are believed to be generally applicable.

However, each user should review these recommendations and determine whether they are appropriate.
